

Miroslav Jonaš

@angular-component Router

@meeroslav

The background is a dark navy blue. It features several large, overlapping, semi-transparent geometric shapes in various colors: bright green, cyan, magenta, orange, and blue. These shapes are arranged in a way that creates a sense of depth and movement, with some appearing to be layered on top of others. The overall aesthetic is modern and tech-oriented.

Nije lako biti
Angular dev

Džon F. Kenedi

“Ne pitajte šta Angular može učiniti za vas, već šta vi možete učiniti za Angular”

Zdravo!

ANGULAR MEETUP / MAY 2017

ANGULAR ROUTE LOCALIZATION

```
<!-- neki html pre -->
<router>
  <route path="/blog" [exact]="false">
    <app-blog *routeComponent></app-blog>
  </route>
  <route path="/posts/:postId">
    <app-post *routeComponent></app-post>
  </route>
  <route path="/about">
    <app-about *routeComponent></app-about>
  </route>
  <route path="/" redirectTo="/blog"></route>
  <route path="/" [exact]="false">
    <app-page-not-found *routeComponent></app-page-not-found>
  </route>
</router>
<!-- neki html posle -->
```

```
<!-- neki html pre -->
<router>
  <route path="/blog" [exact]="false">
    <app-blog *routeComponent></app-blog>
  </route>
  <route path="/posts/:postId">
    <app-post *routeComponent></app-post>
  </route>
  <route [path]="aboutPath$ | async">
    <app-about *routeComponent [user]="me"></app-about>
  </route>
  <route path="/" redirectTo="/blog"></route>
  <route path="/" [exact]="false">
    <app-page-not-found *routeComponent></app-page-not-found>
  </route>
</router>
<!-- neki html posle -->
```

Andres Gesteira @GeorgeKaplan_G · Dec 7

Replying to @meeroslav and @angular

If I understand this correctly the only difference is that you declare the routes in the component template instead of in the routing module.

**VELIČINA
JE BITNA!**

GUARDS?

NE, NGIF!

```
<router>  
  <route path="/admin" *ngIf="user.isAuthenticated$ | async">  
    <app-admin *routeComponent></app-admin>  
  </route>  
</router>
```

POGREŠAN POREDAK PUTANJA

Tamo gde idemo

NE POSTOJI POGREŠAN POREDAK PUTANJA

```
<router>
  <route path="/" [exact]="false">
    <app-page-not-found *routeComponent></app-page-not-found>
  </route>
  <route path="/" redirectTo="/blog"></route>
  <route path="/blog" [exact]="false">
    <app-blog *routeComponent></app-blog>
  </route>
</router>
```

ČEK... JEL TO ZAMENA?

Ne, nadogradnja!

SADA?

Zavisi...

AKO VAM TREBAJU...

- › Redirekcije
- › Ugnježdene rute
- › Lenje učitavanje
- › Ograničavanje pristupa
- › Parametri putanje kao Observable
- › Sporedni ruteri

IPAK... AKO VAM TREBA:

- › Kompleksna guards arhitektura
- › Svi parametri dostupni svuda
- › Neka druga config/event magija

“Korak po korak” pristup

HVALA!

Pitanja?
